Monday, November 18. 1706.

From the Paris Gazette, dated Nov. 20.

Madrid, Nov. 2.

**T**HE King and Queen left the Escorial the 26th of last Month, and lay the following Night at las Rosas. The 27th about 10 in the Morning their Majesties came to the Chappel of our Lady of Atocha, where they heard Mass, after which Te Deum was sung to Musick with all possible Magnificence; and there was a great Concourse of People at this Ceremony. The King and Queen came from thence to this City, and all the Streets through which they pass'd were adorn'd with Festoons of Flowers in various forms, Tapestries, Pictures, and particularly the Frontispieces of the Churches and publick Buildings, where the Pictures of their Majesties were hung up with Devices, Emblems and Verses round them. The Rejoycings began that Evening, and were continued the 2 following Nights, all the City being illuminated, and there were Fireworks extraordinarily well contriv'd in almost every Quarter: The chief Firework was on the 29th in the Square before the Palace, and was in the Form of an Edifice of 5 Stories, on the lowermost of which 6 Arch-heralds were represented, with Verses alluding to the Potentates that kindled the War in this Kingdom, to support the Pretensions of his Imperial Majesty. After these Rejoycings the Magistrates, the Corregidor, and all the Officers of this City went to the Chappel of our Lady of Atocha, to render Thanks to God for their Majesties Return. We have Advice by a Courier, sent from Munebrega by the Chevalier de Pons Brigadier, that the Rebels to revenge their Loss at Nuevalos, went to the Number of 1800 Foot with the Regiment of Horse of Morras and pillag'd Carenas, a Place not far from Nuevalos, and is under the Jurisdiction of the royal Monastery of our Lady of Piedra. The Chevalier de Pons who march'd with all possible Expedition to cut off their Passage over the River, could not arrive time enough. Wherefore he resolv'd to pursue them in their Retreat, and did it with Success, overtaking them at Viluenna, where he intirely defeated them. A great Number of them were kill'd, among them several Peasants; and some Officers and others were taken Prisoners. The rest escap'd by Favour of the Night, because the Foot being much tired with the Fight and the March of the Day before, could not pursue them, which gave them an Opportunity to carry off 2 Pieces of Cannon and some Ammunition. The Troops return'd since to Munebrega, a Place that is advantageously situated, and where they have found Store of Refreshments. They are encamp'd within 2 Leagues of Calatayud, which is the principal Town of a Territory that contains a great Number of small Towns and Villages, which are all return'd to their Obedience to the King, without waiting to be forc'd to it, or so much as to be summon'd. The Chevalier de Pons had sent to summons the Inhabitants of Calatayud to do the like, and waited their Answer. We have Advice, that of the Prisoners taken at Elche, 700 were Soldiers of regular Troops, 300 Valencians, and some Officers; 150 Horses well accounted were likewise taken there. The Bishop of Murcia is at Novelda, and has given Order for the Security of Orihuela, in which he has plac'd a new Governour. He went thither for that purpose, and there took possession of the Vicero ship of the Kingdom of Valencia by Virtue of a Commission from the King; which done he displac'd the Jura's and other Officers that had been concern'd in the Rebellion, and put others into their Rooms. After which he nominat'd and caus'd to be acknowledg'd as Governour Don Louis Forteres, and Don Juan his Brother to be his Lieuten-

nant, being Gentlemen who had given signal Proofs of their Loyalty and Zeal. He condemn'd the Inhabitants to pay 4000 Pistoles, the greatest part of which was distributed among the Troops; and has besides oblig'd them to furnish 6000 Measures of Wheat, and 12000 of Oats. That Prelate was preparing to march towards Carragena, and the Duke of Berwick was at Orihuela, having in his Way been at Murcia. We are told by Letters from Salamanca of the 27th of October, that a Friar who was arriv'd there from Ciudad Rodrigo reported, that the Portuguese had carried off 14 Cannon they had there, and had left 7 that could do but little Service; that they had likewise drawn out of the Castle, the Ammunition and Provisions that were in the Magazines, and that only 1000 Foot and 150 Horse were in the Place. The Marquis de Bay has been to view the Frontier, and is come back to Plasencia. A Detachment of Horse of the Regiment of Sant Jago having entered Portugal, advanc'd very near to Miranda, and after having burn'd 8 Villages and plunder'd some others, are return'd without Opposition to Zamora with several Prisoners, 100 Cows, a great number of small Cattle, and 2 Waggon's loaded with Sugar. A Party of Arragonian Rebels has been defeated on the Frontier of Navarre, and 50 of them taken Prisoners. Prince Tserclaes de Tilly is drawing Troops together at Tudela, which augment daily, by the great Number of the Nobility that repair to him.

From the Antwerp Courant, dated Nov. 23.

Paris, Nov. 19. Letters from Madrid of the 7th of this Month advise, that the Duke of Berwick was encamp'd the 2d between Murcia and Cantarilla, and that it began to be doubted whether he would attempt the Siege of Carragena, the Enemy having made sufficient Provision for its Defence.

From the Paris Gazette, dated Nov. 20.

Basil, Nov. 7. Letters from Turin of the 30th and from Milan of the 31st past, confirm, that the Town and Castle of Alexandria have surrendred by Capitulation, pursuant to which the French Troops in Number 1500 Men have been conducted to Suza, and the Spaniards and Italians were disarm'd and detain'd, in order to oblige them to take Service in the Imperial Troops, or in those of the Duke of Savoy. The Garrison of Pizzighitone after having defended themselves with extraordinary Valour, beat a Parley; but being refus'd honorable Conditions, they refus'd to yield: So the Siege continued till the 29th, when the Besiegers agreed to let them march out with Arms and Baggage and 4 Pieces of Cannon, as they had demanded: Which was done. Prince Eugene having taken the Town of Tortona, caus'd the Castle to be attack'd; but meeting too much difficulty and resistance, he went from thence upon Intelligence he had receiv'd that a Magazine of Powder in Alexandria had blown up, and caus'd great Disorder there. He left Troops to continue the Siege of the Castle of Tortona; but 'twas believ'd that Siege would be turn'd into a Blockade. 'Twas reported that Prince had a Design to besiege Valenza; but the Weather being very bad, and his Troops being extremely weaken'd and fatigu'd 'tis believ'd he will be oblig'd to defer that Siege to a better Season, as also the Sieges of Cremona and of the Castle of Milan. They write from Turin, that the Po and the Doria had overflow'd in such a manner, that they had carry'd away part of the Bridge, and done more Damage than in Autumn last. 'Tis advis'd that the Count de Medavi's Troops are in a very good Condition, and very well paid, and that the Number of them encreases daily, by Deserters of several Nations that go over to him, and by the Spanish, Italian, and Swiss Prisoners, who

who can find Means to make their Escape. Several Inhabitants of the Milaneze being unable to endure the Disorders committed by the Imperialists, have taken Refuge in the Bressan, and in the other Territories of the Republick of Venice, as also in those of the Republick of Genoa.

From the Amsterdam Gazette, dated Nov. 23.

Letters from Turin of the 6th of this Month advise, that the Duke of Savoy had caus'd Casal to be invested, with design to besiege it in form.

The Advices from Verona of the 9th tell us the French had made a Detachment from Manua, of about 3000 Men, who went down the Po with design to sieze some Artillery at Ponte del Lago Oluaro; but that the said Detachment had been oblig'd to return to Ostiglia, without having executed their design, because the Waters are so much out. The Count de Medavi has put part of his Horse into the Modeneze, for their Subsisting the more commodiously.

Letters from Milan of the same date advise, that the Lord Peterborow who had been there war set out for Turin, that the Duke of Savoy is gone from Pavia towards Casal, to besiege that Place, while Prince Eugene besieges Valenza; and that the Castle of Tortona defended itself still. The Prince of Hesse Cassel was at Milan incognito; and Prince Eugene was shortly expected there, to make some military Regulations.

Kinsale, Nov. 5. Here is arriv'd the Philip Brigantine of London of 70 Tuns, John Broad Master, from Virginia, with Tobacco, Sugar, Logwood, and Ginger, for London; she parted from the Fleet consisting of 300 Sail the 19th past in the Latitude of 36.
